

La Terre

DAY SPA

Our founders had one dream:
bring the luxury and relaxation
only found in faraway resorts to
the big city.

With La Terre Spa, you no longer need to travel to the far reaches of Australia for tranquillity. You'll find it here, hidden in plain sight of your own hometown.

When you step inside *La Terre Spa*, take a moment to appreciate the soothing, peaceful feelings that wash over you as your spirit recognises a moment of true rejuvenation. Let the doors close behind you and leave behind every care and worry. Enjoy this time to focus on your own wellness and watch the world slip away.

For your ultimate pleasure, we offer multiple different experiences, each uniquely crafted to bring out the best in you. Choose from deep tissue massages, beautifying spa treatments, indulgent jacuzzi relaxation, and more. You can even craft your ideal half-day or full-day experience for total self-indulgence.

Our name, *La Terre*, is inspired by the French name for Earth because we are convinced that Mother Nature holds all the secrets to true beauty and wellness. We are proud to incorporate natural, botanical ingredients into every aspect of our practice to bring you true abundance and healing.

Thank you for allowing us to be a part of your wellness journey. We look forward to offering you a moment (or a day) of true and lasting rejuvenation. Let us know how we can make your time with us truly memorable.

May you return again and again to enjoy the peace of *La Terre*.

Committed to the bounty that the earth has given us, La Terre Spa uses only the absolute best products for your skin, hair, and body.

We have carefully selected brands that align with our personal mission of respecting the Earth and embracing the bounty of nature.

For skin and facial treatments, we use products from *Hunterx* and *Aesop*. These are truly luxurious treatments that incorporate the best of science with the beauty of botanicals. We are certain you will see and feel a difference.

We are also proud to incorporate *Aveda* products at our spa in our hair and body wash services. *Aveda* products are 100% vegan, sustainable, and infused with the power of plants.

We also feature the use of essential oils in our massage and aromatherapy treatments. These precious oils are full of vitamins and minerals that will excite your senses and bring healing to your body. Some of our preferred oils are lemongrass, geranium leaf, coriander and citrus. (We also offer the use of unscented oil for those who may be sensitive to scents.)
